DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 1-8 and 10-15 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The claims now seem to be directed to an invention that is performed without the use of any type of computer or processing device (since the amendment now defines the sample cards as, "physical paint color sample cards") which was not the case in view of the originally filed claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-8 and 10-15 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
